MDFSKID - BESPOKE OPTIONS AVAILABLE

Match with our
NOVA furniture
on page 19!

Following numerous requests for matching furniture packages, we are pleased to introduce our MDFSKID as a bespoke option to match any of our NOVA furniture.

At the heart of the bed, an incredibly strong Skid bed, designed to hold 300kg (150kg per sleeper on the 4'6). With our unique copyright designed folding legs, this bed simply folds away when not in use.

To complete the look, we can now supply the frame (as well as the standard beech colour) in any of the colours available from our NOVA range of furniture.

Choose from Vintage, Walnut, Matt White, Grey, Black or Lorenzo Oak- and we will supply you with a matching headboard and frame pack.

Available in 3'0, 4'0 and 4'6 sizes, this new range will take 2 weeks to manufacture.

Please note: The frame packs cannot be sent via Direct Home Delivery Services.

Crib 5 also known as: BS 7177 / Source 5

A fire safety standard which commercial furniture must meet.

In accordance with The Furniture and Furnishings Fire Safety Regulations 1988, materials used for upholstering furniture in commercial environments are checked to ensure they will not easily catch fire in normal circumstances.

It's important to note that materials that meet Crib 5 standards (the term given to furniture and furnishings tested to meet the 1988 regulations) are not 'fireproof' – they prevent the risk of a fire being started and spreading.

Platinum Collection

CRIB 5 | SOURCE 5

Immerse yourself in a world where comfort meets artistry with our Platinum Furniture collection; a collection that redefines the meaning of luxury. Each piece, from the majestic divans and bespoke beds to the sumptuous sofas, ottomans, and sofa beds, is a statement of refinement, crafted with precision and upholstered in the most exquisite fabrics sourced from around the world. Designed not only to be lived in but to be admired, our mattresses and furnishings embody the elegance of timeless design fused with modern sophistication. The Platinum collection is more than furniture, it is a celebration of indulgence, exclusivity, and the art of living beautifully.

FABRICS

Band A -

LINOSO:

Designed for use in any contract environment. Hard wearing and soft to the touch, the colours have been selected to complement any interior and display the type of intensity only polyester can provide.

Band B -

DREAM FAUX SUEDE | PLUSH VELVET

A new generation of fabrics made with microfibre yarns and finished with a faux suede appearance. It embodies the distinctive density of colour that only modern fibres can give. All colours have been carefully selected to enhance any home or contract situation. Our Plush is characterized by its dense pile and smooth texture giving a soft, luxurious and velvety feel.

Band C-

MODA | AGUA NOVA | EMPORIO| MAXIMO FAUX LEATHER

Moda has been developed by our mills fabric technicians to give a wonderful natural look. It is very tactile to the touch and embodies the distinctive intensity of colour that only polyester can give. The very latest dyeing techniques are employed together with the fabric being finished with an irregular distressed appearance. It is recommended customers are made aware of this characteristic at the point of sale. Colours have been selected to complement any interior. We then have a range of faux leather, faux linen and our Agua Nova which is a subtle herringbone effect.

Introducing our state-of-the-art Walton Hostel Bunk Bed, engineered for commercial use. This bunk bed combines superior safety with unparalleled convenience and compliance with EN747 regulations. Comes with a multitude of features to provide the only bunk bed you'll ever need for your hostel setting.

Key features include:

Privacy Curtains: Each bed comes with high-quality UKFR curtains on all sides, offering a private sanctuary for undisturbed rest, even in shared spaces.

MDF Surrounds: Elegant MDF panels provide a warm, cosy feel while enhancing sound insulation and visual appeal.

Storage Box: A spacious built-in storage box is perfect for keeping personal items within reach, ensuring convenience and clutter-free surroundings.

Under-Bed Locker: Each bed features a large locker beneath the lower bunk, equipped with digital locks to keep your belongings safe and secure.

Built-in Fan: Stay cool and comfortable with an individual fan for each bunk, ensuring a personalized airflow system for optimum relaxation.

Commercial Settings: Ideal for hostels, dormitories, guest houses, and other commercial accommodations.

IMPORTANT: Due to the size of these bunk beds, a minimum order quantity applies to this hostel bunk bed of 37 sets, and these can be provided directly to you or your customer for installation.

Containers

Did you know Wholesale Beds can arrange direct containers to your warehouse, or even direct to your customer?

If you have space availability, there are huge savings to be made if ordering containers and we arrange direct delivery to you!

WHY?

The reasons we can offer reductions are:

Unloading Container Costs: We do not have to pay staff to unload the containers.

Storage Costs: We do not have to allocate space in our warehouses.

Delivery Costs: We do not have to deliver the goods on our vehicles.

BENEFITS OF ORDERING CONTAINERS:

Guaranteed Stock: You can tailor the products to suit your container (please see information below about MOQ's for products and categories). This ensures you do not run out of stock, and you can re-order if need be.

Own Branding: although Wholesale Beds do not put their logo on the boxes, the product name is. You can choose (at no extra cost) to have your own company logo on it, and also your own product name to make it totally unique to you.

Direct To Your Customer: If you are installing the products yourselves, and your customer has the room, we can arrange for the container to be delivered direct to them. You would need to be there to unload the container, but there are no additional costs in hiring vehicles for you to take the goods, which sometimes means several trips to & from your warehouse.

Environmental Impact: If we were delivering (for example) 350 No Bolt Bunks to you on our own vehicle, it would take 4 trips. A container delivery is 1 delivery, cutting down on fuel emissions, which can only help the environment.

WHAT CAN I HAVE IN MY CONTAINER?

We have several suppliers of bed frames, and not all suppliers make the same products. For example, our No Bolt Bunk manufacturer cannot make our mesh based bed frames, and vice versa.

Please let us know your requirements, and we will advise you as to what we can offer. The quantities will vary per bed & size.

As a guideline, if you wanted a container of 3ft Contract Mesh frames, we can supply 370 of these; or if you need a container of No Bolt Bunk beds, we can supply 350 of these per container.

WHAT SIZE CONTAINER CAN I ORDER?

We supply 40' HQ containers. The reason for this is you can get more products on a container, and the price difference between shipping a 20' and 40' is not a lot. If you did only want a 20' please ask for details.

Warehouse Collections are available between 9am-3pm
